Very impressed

I have been very impressed so far. Perfect size and actually goes pretty fast. Seems better built than other affordable electric bikes that I have bought. Range is as described. It also was very easy to put together. It took less than 10 minutes.

▼
- Question:** How do I keep the speed on the app at the lower speed? It keeps switching back to the higher speed!
- Answer:** Hi, thanks for your message. When you selected the speed you want to ride on, then you need to click the "limited speed" at the bottom, when it shows "setting successfully", and it could be fixed. Or you could directly adjust into kids mode, the speed would be in very slow. Hope this could be workable for you.

★★★★☆ **Light and sleek. Rated up to 265 lbs.**

Reviewed in the United States on December 26, 2018

Color: black | **Verified Purchase**

Light and sleek. Rated 265 lbs. We bought this and a H1 and so far like this one better. It is easier to handle with one handed lifting if you are strong as the middle is smaller. The charger is very similar to the H1. This is only a initial review.

So after a month the unit still works but the plastic hubs are showing some damage and some plastic peices are ratteling around inside. We havnt been gentle with it though ;).

the motor is smaller. The charger is very similar to the H1. This is only a initial review.

So after a month the unit still works but the plastic hubs are showing some damage and some plastic peices are ratteling around inside. We havnt been gentle with it though ;),

★★★★★ **Great value, great experience so far**

Reviewed in the United States on March 10, 2020

Color: pink | **Verified Purchase**

I did allot of research on hoverboards. What I found was every single one has a few reviews of people saying their's was defective or did nothing but beep. Basically I took a leap of faith guided by my 6 year old daughter's simple request for pink. I have now had this Gyroor for a week and I am very happy with the purchase thus far. First, my daughter loves it and was zipping around all over the place in no time. The lights are bright and colorful. The app is easy to pair and use. I put it in child mode and limited the speed in minutes. It can support 220lbs according to the manual which should make it big brother survivable. Battery life has been excellent and the charge time of 2-3 hours is quicker than I expected. So far my only nit-pick would be I think the cosmetics of the plastic body could be scratched up and gouged pretty easily. But it does feel like a solid piece of machinery. That it comes with a bag is really nice. At this point I feel like I hit the sweet spot of not going too cheap while keeping the price reasonable for a 6 year old. I'll update in a couple months

★★★★☆ **Battery is not so good!**

Reviewed in the United States on April 15, 2019

Color: black | **Verified Purchase**

Battery didn't last more then 30 minutes. Got the item replaced and had the same problem. The company was quick to resolve thing but only refunded to amazon account not to original payment method. I should also mention when it stops working or dies unexpectedly it comes to a complete stop. Making the rider go flying!

★★★★★ **GREAT PRODUCT, GREAT PRICE, FAST SHIPPING!**

Reviewed in the United States on January 16, 2019

Color: pink | **Verified Purchase**

Got this for my granddaughter for Christmas! After setting it up to her mother's phone, it took a couple of days and learning beside something to hold on to while getting the feel of things. (of course we had a few laughs at her dad's expense) She is now scooting around as well as she rides her bicycle. She is having a blast! The slower learning feature was perfect for her to use until she got the hang of riding it.

★★★★★ **My son loves it (UPDATE)**

Reviewed in the United States on September 2, 2020

Color: black | **Verified Purchase**

We purchased this about a year ago and my 9 year old son has a blast with it! It stood up well for some time and then the battery would only last for a few minutes. I saw that the battery warranty was only 6 months but figured I would contact Gyroor directly and see if there was anything they could do. I was pleasantly surprised when they told me they would send me a new battery! Needless to say I am very happy with the product and their customer support.

UPDATE 1/25/2021 - So Gyroor wound up sending me the wrong battery, and then asked me to ship the entire hoverboard back so they would fix it. I sent it back and they sent me back a hoverboard where the bottom was not fully screwed in and the threads were stripped.

They then sent me another hoverboard that had the SAME EXACT ISSUES. Now they are saying they don't have it in stock and will send me a new one once it is in stock. It has been about 6 months since I had this initially had this issue which is not an acceptable amount of time. If I do finally received a working hoverboard that is also safe to use I will update this review again.

▼
- Question:** How do I keep the speed on the app at the lower speed? It keeps switching back to the higher speed!
- Answer:** Hi, thanks for your message. When you selected the speed you want to ride on, then you need to click the "limited speed" at the bottom, when it shows "setting successfully", and it could be fixed. Or you could directly adjust into kids mode, the speed would be in very slow. Hope this could be workable for you.

★★★★☆ Light and sleek. Rated up to 265 lbs.

Reviewed in the United States on December 26, 2018

Color: black | [Verified Purchase](#)

Light and sleek. Rated 265 lbs. We bought this and a H1 and so far like this one better. It is easier to handle with one handed lifting if you are strong as the middle is smaller. The charger is very similar to the H1. This is only a initial review.

So after a month the unit still works but the plastic hubs are showing some damage and some plastic peices are ratteling around inside. We havnt been gentle with it though ;).

the motor is smaller. The charger is very similar to the H1. This is only a initial review.

★★★★★ **Great value, great experience so far**

Reviewed in the United States on March 10, 2020

Color: pink **Verified Purchase**

I did allot of research on hoverboards. What I found was every single one has a few reviews of people saying their's was defective or did nothing but beep. Basically I took a leap of faith guided by my 6 year old daughter's simple request for pink. I have now had this Gyroor for a week and I am very happy with the purchase thus far. First, my daughter loves it and was zipping around all over the place in no time. The lights are bright and colorful. The app is easy to pair and use. I put it in child mode and limited the speed in minutes. It can support 220lbs according to the manual which should make it big brother survivable. Battery life has been excellent and the charge time of 2-3 hours is quicker than I expected. So far my only nit-pick would be I think the cosmetics of the plastic body could be scratched up and gouged pretty easily. But it does feel like a solid piece of machinery. That it comes with a bag is really nice. At this point I feel like I hit the sweet spot of not going too cheap while keeping the price reasonable for a 6 year old. I'll update in a couple months

★★★★☆ **Battery is not so good!**

Reviewed in the United States on April 15, 2019

Color: black **Verified Purchase**

Battery didn't last more then 30 minutes. Got the item replaced and had the same problem. The company was quick to resolve thing but only refunded to amazon account not to original payment method. I should also mention when it stops working or dies unexpectedly it comes to a complete stop. Making the rider go flying!

★★★★★ **GREAT PRODUCT, GREAT PRICE, FAST SHIPPING!**

Reviewed in the United States on January 16, 2019

Color: pink **Verified Purchase**

Got this for my granddaughter for Christmas! After setting it up to her mother's phone, it took a couple of days and learning beside something to hold on to while getting the feel of things. (of course we had a few laughs at her dad's expense) She is now scooting around as well as she rides her bicycle. She is having a blast! The slower learning feature was perfect for her to use until she got the hang of riding it.

★★★★★ **My son loves it (UPDATE)**

Reviewed in the United States on September 2, 2020

Color: black | **Verified Purchase**

We purchased this about a year ago and my 9 year old son has a blast with it! It stood up well for some time and then the battery would only last for a few minutes. I saw that the battery warranty was only 6 months but figured I would contact Gyroor directly and see if there was anything they could do. I was pleasantly surprised when they told me they would send me a new battery! Needless to say I am very happy with the product and their customer support.

UPDATE 1/25/2021 - So Gyroor wound up sending me the wrong battery, and then asked me to ship the entire hoverboard back so they would fix it. I sent it back and they sent me back a hoverboard where the bottom was not fully screwed in and the threads were stripped.

They then sent me another hoverboard that had the SAME EXACT ISSUES. Now they are saying they don't have it in stock and will send me a new one once it is in stock. It has been about 6 months since I had this initially had this issue which is not an acceptable amount of time. If I do finally received a working hoverboard that is also safe to use I will update this review again.

★★★★★ **Best Christmas present ever!!!**

Reviewed in the United States on January 7, 2019

Color: pink | **Verified Purchase**

Bought this for my 11 yr old daughter for Christmas. She loves it. All her friends got one too and paid about the same price but hers is cooler than them all. The Bluetooth speaker works great and is very loud. She jumped on and became a pro in about 15 minutes.

▼
- Question:** How do I keep the speed on the app at the lower speed? It keeps switching back to the higher speed!
- Answer:** Hi, thanks for your message. When you selected the speed you want to ride on, then you need to click the "limited speed" at the bottom, when it shows "setting successfully", and it could be fixed. Or you could directly adjust into kids mode, the speed would be in very slow. Hope this could be workable for you.

★★★★☆ Light and sleek. Rated up to 265 lbs.

Reviewed in the United States on December 26, 2018

Color: black | **Verified Purchase**

Light and sleek. Rated 265 lbs. We bought this and a H1 and so far like this one better. It is easier to handle with one handed lifting if you are strong as the middle is smaller. The charger is very similar to the H1. This is only a initial review.

So after a month the unit still works but the plastic hubs are showing some damage and some plastic peices are ratteling around inside. We havnt been gentle with it though ;).

★★★★★ **Great value, great experience so far**

Reviewed in the United States on March 10, 2020

Color: pink | **Verified Purchase**

I did allot of research on hoverboards. What I found was every single one has a few reviews of people saying their's was defective or did nothing but beep. Basically I took a leap of faith guided by my 6 year old daughter's simple request for pink. I have now had this Gyroor for a week and I am very happy with the purchase thus far. First, my daughter loves it and was zipping around all over the place in no time. The lights are bright and colorful. The app is easy to pair and use. I put it in child mode and limited the speed in minutes. It can support 220lbs according to the manual which should make it big brother survivable. Battery life has been excellent and the charge time of 2-3 hours is quicker than I expected. So far my only nit-pick would be I think the cosmetics of the plastic body could be scratched up and gouged pretty easily. But it does feel like a solid piece of machinery. That it comes with a bag is really nice. At this point I feel like I hit the sweet spot of not going too cheap while keeping the price reasonable for a 6 year old. I'll update in a couple months

★★★★☆ **Battery is not so good!**

Reviewed in the United States on April 15, 2019

Color: black | **Verified Purchase**

Battery didn't last more then 30 minutes. Got the item replaced and had the same problem. The company was quick to resolve thing but only refunded to amazon account not to original payment method. I should also mention when it stops working or dies unexpectedly it comes to a complete stop. Making the rider go flying!

★★★★★ **GREAT PRODUCT, GREAT PRICE, FAST SHIPPING!**

Reviewed in the United States on January 16, 2019

Color: pink | **Verified Purchase**

Got this for my granddaughter for Christmas! After setting it up to her mother's phone, it took a couple of days and learning beside something to hold on to while getting the feel of things. (of course we had a few laughs at her dad's expense) She is now scooting around as well as she rides her bicycle. She is having a blast! The slower learning feature was perfect for her to use until she got the hang of riding it.

★★★★★ **My son loves it (UPDATE)**

Reviewed in the United States on September 2, 2020

Color: black | **Verified Purchase**

We purchased this about a year ago and my 9 year old son has a blast with it! It stood up well for some time and then the battery would only last for a few minutes. I saw that the battery warranty was only 6 months but figured I would contact Gyroor directly and see if there was anything they could do. I was pleasantly surprised when they told me they would send me a new battery! Needless to say I am very happy with the product and their customer support.

UPDATE 1/25/2021 - So Gyroor wound up sending me the wrong battery, and then asked me to ship the entire hoverboard back so they would fix it. I sent it back and they sent me back a hoverboard where the bottom was not fully screwed in and the threads were stripped.

They then sent me another hoverboard that had the SAME EXACT ISSUES. Now they are saying they don't have it in stock and will send me a new one once it is in stock. It has been about 6 months since I had this initially had this issue which is not an acceptable amount of time. If I do finally received a working hoverboard that is also safe to use I will update this review again.

★★★★★ **Best Christmas present ever!!!**

Reviewed in the United States on January 7, 2019

Color: pink | **Verified Purchase**

Bought this for my 11 yr old daughter for Christmas. She loves it. All her friends got one too and paid about the same price but hers is cooler than them all. The Bluetooth speaker works great and is very loud. She jumped on and became a pro in about 15 minutes.

▼
- Question:** For everyone that gave this hoverboard 4 to 5 stars, how long have you been using it without any problems?
- Answer:** 2 years, we've had it and my 13yo isn't easy on stuff. Many family members have tried it also at campgrounds. Still works great with good battery life.

▼
- Question:** Why does my G2 only charge for 30 min before the charging pack says it is fully charged but the led lights are red when riding?
- Answer:** Does it still last long when riding? My son's does that but I notice that it's blue on one side and red on a other. I dont think it has to do with the charge.... His lasts several weeks before needing to recharge. He just rides off and on, not long rides.

▼
- Question:** is this hoverboard FAA compliant, can it be shipped or carried aboard a commercial aircraft?
- Answer:** no hoverboard can be carried on an aircraft. EVEN if the battery power is below TSA and FAA regulation they all say the same thing "it down to the individual airline". The airlines say specifically no hoverboards. I wrote this: <https://thetechieguy.com/can-travel-flight-electric-skateboard/>

★★★★★ **BEST hoverboard!!**

Reviewed in the United States on August 15, 2018

Color: black | **Verified Purchase**

We got this for our 13 yr old daughter! We love the app you can download on your smartphone. The app has a self balancing mode, adult mode, you can set the speed limit, change LED lights, shut the hoverboard down and a few other functions. We think it is a lot better than the others because of the rubber tires. My daughter even brings it in (after cleaning the tires) and rides it around on our hardwood floors with no damage to them. The speakers on it are great too!!

Sam Thomas

★★★★☆ **Great Product**

Reviewed in the United States on November 27, 2018

Color: black | **Verified Purchase**

This was my first hover board wasn't sure how long it would take me to learn to ride it. After like 30 minutes of training on my own against a wall I was able to ride it with no problems.

The only thing I find bad about this hover board is that every time it starts up it makes a really loud starting indicator noise and says Bluetooth on which I wish I could switch off. Also sometimes when I get off and if it hits something it keeps beeping and won't stop until I power off and back on again.

Apart from these two things I think the hover board is pretty great.

Joe M

★★★★★ **Best Hoverboard on the market**

Reviewed in the United States on September 12, 2018

Color: black | **Verified Purchase**

This Hoverboard is absolutely the best on the market. Its fast and extremely sturdy. Made of quality materials. The Hoverboard is a bit pricey compared to the cheap plastic knockoffs, but you get what you pay for. Would purchase again and I definitely recommend this product.

P.s.

You can charge the battery from 0 to 100 real quick. Yeah under 3 hours and u get approx. 10 miles with a full charge.

Easy to use once you get the hang of it. Lights are awesome as is the sound system. Getting the app on an iPhone was a bit difficult. Self balancing feature nice. Functionality is bar none. Doesn't work too well on the grass, haven't tried on gravel. App works well, wish it could change to mph instead of kph.

★★★★★ **Problems with Shaking and stopping**

Reviewed in the United States on October 9, 2018

Color: red | **Verified Purchase**

I bought 2 of these hover boards for Christmas during the Amazon customer appreciation event in July. In October the kids just couldn't wait any longer so I gave them their boards early while the weather was still nice. They loved them! However within a few hours of using them, one of the boards was shaking and stopping. My grandson has fallen off twice and injured himself because of this defect. I would love to give this 5 stars because it is well made and the kids love them. But the shaking and stopping is not safe and negates any Positive benefits. We have tried to contact seller but not successful yet.

 T. Sutherland

★★★★★ **Super fun!**

Reviewed in the United States on August 9, 2018

Color: black | **Verified Purchase**

Bought this because hubby was jealous of our boy's hover board. The higher weight capacity and off road tires are a huge selling point. Easier to ride than the smaller kid size, more stable feeling. Had an issue with the charging port but Gyroor took care of it no problem!

Reviewed in the United States on July 10, 2018

Color: red | **Verified Purchase**

such a great hoverboard! very easy to ride even for a first-time rider and my kids just got on and within minutes they were zipping around the house. Great quality, cool lights give it that futuristic look and it seems to hold a charge for a long time. The tires are massive which gives the board a really good height, comfortable ride, and even riding outside on lawn is no problem. Highly recommended!

About this item

- SMART APP CONTROLLED - This self balancing scooter comes with an efficient app that helps you stay in control, giving you the ability to change modes, check batteries, see the real speed, Changing led light colors and adjust speed with ease.
- FOR ALL RIDERS - Coming with 2 modes, the children mode makes this hover board easy to control for a first-timer or a kid rider. While its adult mode allows expert riders easily perform hoverboard tricks.
- MUSIC SPEAKER INCLUDED - For the music lovers, the Gyroor Swift spots a built-in branded high quality music speaker that allows you play music when riding the hoverboard.
- SELF BALANCING BOARD - We have adopted the self balancing technology to make this hoverboard easier and safer for new riders. Perfect your balancing with a full rest of mind!
- SAFETY CERTIFIED - This UL2272 certified hover board has passed strict electrical and safety test to protect charging and rides. If you feel this hoverboard is not performing to standard, feel free to contact us

Question: can you use it without a phone, my kid, I am buying it for doesn't have a phone?

Answer: Definitely! My son never uses a phone when he rides.

Question: How do I keep the speed on the app at the lower speed? It keeps switching back to the higher speed!

Answer: Hi, thanks for your message. When you selected the speed you want to ride on, then you need to click the " limited speed" at the bottom, when it shows " setting successfully", and it could be fixed. Or you could directly adjust into kids mode, the speed would be in very slow. Hope this could be workable for you.

★★★★☆ Light and sleek. Rated up to 265 lbs.

Reviewed in the United States on December 26, 2018

Color: black | Verified Purchase

Light and sleek. Rated 265 lbs. We bought this and a H1 and so far like this one better. It is easier to handle with one handed lifting if you are strong as the middle is smaller. The charger is very similar to the H1. This is only a initial review.

So after a month the unit still works but the plastic hubs are showing some damage and some plastic peices are ratteling around inside. We havnt been gentle with it though ;).

the model is similar to the one I got. It is very similar to the H1. This is only a initial review.

So after a month the unit still works but the plastic hubs are showing some damage and some plastic peices are ratteling around inside. We havnt been gentle with it though ;).

★★★★★ **Great value, great experience so far**

Reviewed in the United States on March 10, 2020

Color: pink | **Verified Purchase**

I did allot of research on hoverboards. What I found was every single one has a few reviews of people saying their's was defective or did nothing but beep. Basically I took a leap of faith guided by my 6 year old daughter's simple request for pink. I have now had this Gyroor for a week and I am very happy with the purchase thus far. First, my daughter loves it and was zipping around all over the place in no time. The lights are bright and colorful. The app is easy to pair and use. I put it in child mode and limited the speed in minutes. It can support 220lbs according to the manual which should make it big brother survivable. Battery life has been excellent and the charge time of 2-3 hours is quicker than I expected. So far my only nit-pick would be I think the cosmetics of the plastic body could be scratched up and gouged pretty easily. But it does feel like a solid piece of machinery. That it comes with a bag is really nice. At this point I feel like I hit the sweet spot of not going too cheap while keeping the price reasonable for a 6 year old. I'll update in a couple months

★★★★☆ **Battery is not so good!**

Reviewed in the United States on April 15, 2019

Color: black | **Verified Purchase**

Battery didn't last more then 30 minutes. Got the item replaced and had the same problem. The company was quick to resolve thing but only refunded to amazon account not to original payment method. I should also mention when it stops working or dies unexpectedly it comes to a complete stop. Making the rider go flying!

★★★★★ **GREAT PRODUCT, GREAT PRICE, FAST SHIPPING!**

Reviewed in the United States on January 16, 2019

Color: pink | **Verified Purchase**

Got this for my granddaughter for Christmas! After setting it up to her mother's phone, it took a couple of days and learning beside something to hold on to while getting the feel of things. (of course we had a few laughs at her dad's expense) She is now scooting around as well as she rides her bicycle. She is having a blast! The slower learning feature was perfect for her to use until she got the hang of riding it.

★★★★★ **My son loves it (UPDATE)**

Reviewed in the United States on September 2, 2020

Color: black | **Verified Purchase**

We purchased this about a year ago and my 9 year old son has a blast with it! It stood up well for some time and then the battery would only last for a few minutes. I saw that the battery warranty was only 6 months but figured I would contact Gyroor directly and see if there was anything they could do. I was pleasantly surprised when they told me they would send me a new battery! Needless to say I am very happy with the product and their customer support.

UPDATE 1/25/2021 - So Gyroor wound up sending me the wrong battery, and then asked me to ship the entire hoverboard back so they would fix it. I sent it back and they sent me back a hoverboard where the bottom was not fully screwed in and the threads were stripped.

They then sent me another hoverboard that had the SAME EXACT ISSUES. Now they are saying they don't have it in stock and will send me a new one once it is in stock. It has been about 6 months since I had this initially had this issue which is not an acceptable amount of time. If I do finally received a working hoverboard that is also safe to use I will update this review again.

★★★★★ **Best Christmas present ever!!!**

Reviewed in the United States on January 7, 2019

Color: pink | **Verified Purchase**

Bought this for my 11 yr old daughter for Christmas. She loves it. All her friends got one too and paid about the same price but hers is cooler than them all. The Bluetooth speaker works great and is very loud. She jumped on and became a pro in about 15 minutes.
